

OPENKEY LOCKS

NXT-150

OVERVIEW & SPECIFICATIONS

OpenKey NXT-150 is ideal for guest-room entry with digital key powered by OpenKey.

The NXT-150 is made of strong 304 stainless steel for increased security. Comes in two stylish finishes, choose from stainless steel or matte black.

DIGITAL KEY

OpenKey has simplified digital key technology by allowing owners to share keys with guests.

BUILT TO LAST

Made with high quality corrosion resistant stainless steel and a long lasting 18-month battery life.

SUPPORTS ALL FORMATS

Multiple access technology like RFID / Mifare keycard, key fob & digital key supported.

FITS MOST STANDARD DOORS

The NXT-150 is made to suit a wide range of compatibility using ANSI standard / Euro standard mortise.

PHYSICAL KEY OVERRIDE

The NXT-150 has a unique 'hard key' override as a last resort backup option.
